iM 8 Vet Monitor

iM 8 Vet Monitor

- Features:**
- Elegant designed appearance, lightweight and space-saving
 - 8.4 inches high resolution TFT LCD display
 - Suitable for adult, pediatric and neonatal patient
 - Unique human voice alarm
 - Maximum 300 hour graphic and tabular trends
 - 1000 pieces of NIBP record storage
 - 1-hour full disclosure information review
 - Real time S-T segment analysis, pacemaker detection
 - Network connection as central monitoring system
 - Easy upgrading keeps you updated

Big Front

Specifications:

ECG

Lead Mode: 3/5 lead
 Lead Selection: I, II, III, AVR, AVL, AVF, V
 Measuring Range: 15 ~ 350 bpm
 Gain: 2.5mm/mV, 5mm/mV, 10mm/mV, 20mm/mV
 Sweep speed: 12.5mm/s, 25mm/s, 50mm/s
 Accuracy: ±1%

SPO2

Range of measurement: 0~100%
 Resolution: 1%
 Accuracy: At 70~100%, ±2%
 Pulse rate measuring range: 20~254bpm
 Pulse rate accuracy: ±3bpm

NIBP

Method Automatic oscillometry
 Measuring range: 10~280 mmHg
 Resolution: 1 mmHg

RESP

Measurement range: Adult 0-120 bpm
 Resolution: 1bpm
 Accuracy: 7~150bpm, ±2%

TEMP

Measuring range: 0-50°C
 Accuracy: ±0.1
 Channel: 2-channel

IBP (optional)

Channels: 2
 Measure range: -50~360mmHg
 Accuracy(no sensor) ±2%

Recorder(Optional)

Width: 48mm
 Speed: 25, 50mm/s
 Channels: 2

Accessory:

ECG Cable

NIBP Cuff

Spo2 Sensor

Probe for Temperature
